Amount: a quantity of something, typically the total of a thing or things in number, size, value, or extent. But for amount the second meaning given is 'a sum of money'; EX: They have spent a colossal ...

Traffic volume has been idiomatic for a very long time, going back to shipping in the 16th century. Volume made a bit more literal sense when talking about wine or timber, but has faithfully ...

When we want only a certain amount charged on the card (say you know you're near your limit and fear going over, or you're splitting the tab unevenly) you say, Please charge this amount (to/on) my credit ...

You were taught correctly. 'Amount' is the total of anything, 'number' is a symbol or word indicating how many, and 'quantity' is the amount or number of things; ability to be measured.

I believe that amount should only be used for uncountable things, like 'pudding'; number and count should only be used for countable things, like 'baby aardvarks'; quantity can be used for either, and ...

Installing solar PV glass varies in price depending on the nation and region, however it is typically more expensive in developing and growing economies.

Solar PV glass, a critical component in solar panels, is essential for converting sunlight into electricity. This rising demand for renewable energy, fueled by environmental concerns and the depletion of ...

If you said "they will grow", you'd presumably be referring to the individual apples, but instead you are talking about the -amount- that will grow. This is confusing because both "amount" is ...

Transparent glass is the most commonly used type of glass for solar panels, as it allows the maximum amount

The amount of glass required by the solar industry

of light to pass through. Translucent glass is also used, as it allows some light ...

Our study defines the solar photovoltaic glass market as low-iron glass sheets that encapsulate or replace conventional module covers and simultaneously function as the light ...

The word amount is used in the singular to convey a single quantity: noun 1.0 A quantity of something, especially the total of a thing or things in number, size, value, or extent: sport gives an ...

Tempered solar photovoltaic glass accounts for nearly 60% usage due to its strength, thermal resistance, and safety advantages, while anti-reflective coated glass contributes to over 45% ...
