-----

As of December 1, 2025, Uzbekistan has installed small-power solar panels with a total capacity of 1,971 MW across 141,221 facilities nationwide, marking a step in the country's transition to renewable ...

In this episode of Business Line Uzbekistan, we look at how the country is rapidly embracing solar power, securing billions in foreign investment and cutting emissions to position itself ...

Developed by the international renewable energy company Voltalia, this 126-megawatt project is a cornerstone of Uzbekistan's strategy to expand its green energy capacity. The Sarimay ...

To date, Uzbekistan has already successfully put into operation 9 solar power plants and 1 wind farm, which together generate 2.7 GW of "green" electricity. These plants are spread across 7 ...

Tashkent, Uzbekistan (UzDaily ) -- As of December 1, 2025, solar panels with a total capacity of 1,971 MW have been installed in Uzbekistan at 141,221 facilities throughout the republic. ...

OverviewPotentialGovernment PoliciesPhotovoltaicsResearch and developmentUzbekistan has great potential for solar energy due to its high levels of solar radiation and large areas of barren land that can be used for solar power plants. The country receives an average of around 300 sunny days per year, making it an ideal location for solar power generation.

Mirziyoyev is pushing the use of solar panels, setting a goal of generating 1GW of power via solar panels on the roofs of businesses and private houses.

Uzbekistan has made a positive effort toward that end, including by setting clear targets and reforming the energy sector and has been progressing toward achieving the solar power capacity target of 4 ...

Solar energy adoption in Uzbekistan is not uniformly distributed across all regions, with certain areas demonstrating higher rates of installation. The Tashkent region leads the way, accounting for 35% of ...

# Uzbekistan solar panel power

Between January and July 2025, solar panels installed on homes, businesses and infrastructure sites across Uzbekistan generated 875 mln kWh of electricity, according to the Ministry ...
