Italy agreed Thursday to a Vatican plan to turn a 430-hectare field north of Rome, once the source of controversy between the two, into a vast solar farm. The Holy See hopes it will generate...

Italy has agreed to a Vatican plan to turn a 430-hectare (1,000-acre) plot of land north of Rome into a vast solar farm that will generate enough electricity to meet the needs of Vatican City.

Pope Leo XIV visited the Vatican's radio transmitter station in Santa Maria di Galeria, Italy, on June 19 and thanked staff for their dedicated work in communicating the Church's mission around ...

To model what this could look like, he announced that solar panels would be installed on a Vatican-owned property outside Rome, and the power generated from that could supply all of...

According to the Vatican's press office, the installation will apply the most advanced solutions currently available, balancing clean energy generation with the preservation of agricultural...

ROME (CNS) -- Almost a year after Pope Francis set up a commission to develop a large solar-panel array on Vatican property outside of Rome, Pope Leo XIV visited the site and the Vatican ...

The future installation would be projected to "ensure, not only the power supply of the radio station existing there, but also the complete energy support of Vatican City State," he wrote.

This property makes it possible for the container not to cast a shadow on the mobile photovoltaic system. The solar container is lifted using the corner corners in the roof frame. With these in the base ...
