Recent innovations like modular BESS (Battery Energy Storage Systems) are changing the game. Think of these as LEGO blocks - you start small and expand as needed, which cuts upfront costs by 15-20%.

Crime in DC drops below pandemic levels as city sees three-week stretch without homicide By Claire Carter February 2, 2026 11:13 am Add Washington Examiner on Google

Two towns in Guinea, a country in West Africa which grapples with issues of energy security, are reaping the benefits of newly installed solar PV (photovoltaic) mini-grids backed with battery energy ...

Distributed at aluminum mining camps with no grid connection and limited construction space, the folding solar containers facilitated quick installation, use of land space, as well as a stable ...

Discover how Guinea's innovative energy storage systems are transforming industries and empowering communities across Africa. Explore cutting-edge applications, real-world success stories, and ...

The project, owned and operated by AES Distributed Energy, consists of a 28 MW solar photovoltaic (PV) and a 100 MWh five-hour duration energy storage system. AES designed the unique DC ...

DISCOVER DC NOW and explore the heart of Washington DC! Get insider access to exclusive events, latest fashion trends, gourmet dining, outdoor activities, and cultural treasures. Your ...

Aptech Africa has launched two photovoltaic mini-grids in Guinea to improve energy access in a country where only 30% of the population has reliable electricity.

Containerized energy storage solutions now account for approximately 45% of all new commercial and industrial storage deployments worldwide. North America leads with 42% market share, driven by ...
