The relationship between homeowners insurance and solar panels, whether you need a supplemental policy, and what insurance providers cover solar power.

In most lease agreements, the solar provider retains ownership and is responsible for maintenance and repairs. However, homeowners may still be required to insure the panels under ...

If you have roof-mounted solar panels, dwelling coverage on your homeowners policy may pay to repair or replace them if they're damaged by certain covered perils.

If your home has suffered damage due to a faulty solar panel installation--such as roof leaks, interior water damage, or electrical issues--you may be wondering if legal action can help ...

Solar panels can be a big investment, but you should confirm that your insurance provides coverage to assist with repairs. Here are some things you may want to consider.

You should be able to bring suit for the installation work done by the solar panel company. The real question is did their work "cause" the water damage that you are now experiencing.

If you suspect solar panel damage, the first thing to do is contact the installation company or another qualified solar energy system repair outfit. The technician can accurately evaluate the...

Claims for damaged solar panels would also vary based on your insurance plan, but likely follows the same process as other damaged property claims. If you subscribe to a PPA or lease your ...

Most homeowners insurance policies treat roof-mounted solar panels as permanent fixtures, similar to built-in appliances or security systems. This means they typically fall under your ...

Who is responsible if the photovoltaic panels damage the house

If you have solar panels installed on your home and they are damaged, find out if your homeowners insurance covers the cost of repairs.
