Yingli Solar focuses on intelligent PV manufacturing, development of power plant industry, and provides high-quality products and services to customers and partners around the world through continuous ...

Yingli Solar offers a range of high-efficiency photovoltaic modules. Its products have evolved over the years -- while it started with full, polycrystalline modules, the company now offers ...

Excellent power generation, excellent reliability and high cost performance: PANDA bifacial series modules, based on the state-of-the-art PANDA N-type monocrystalline silicon cell technology, feature ...

Let's cut through the marketing jargon - Yingli Solar absolutely manufactures monocrystalline panels, and they've been doing it with industrial-grade efficiency since 1998.

Excellent power generation, excellent reliability, and high-cost performance: Yingli Solar's PANDA series of modules use cutting-edge n-type monocrystalline TOPCon cell ...

Its core products are crystalline silicon modules, including monocrystalline (such as PANDA-type) and multicrystalline (YGE-type) panels for residential, commercial, and utility-scale projects.

Yingli Solar, holding 12% of the global PV market share, offers panels balancing efficiency and durability. But what exactly makes their 550W monocrystalline modules outperform competitors?

Yingli is a high-quality, low cost producer of Panda monocrystalline and YGE polycrystalline solar panels. High efficiency PANDA modules are created from an innovative N-type cell technology.
